

DAYBREAK LA MESA PROPERTY OWNERS ASSOCIATION

ORGANIC WASTE RECYCLING

The community has enlarged the trash enclosures enough to begin a mandatory program to recycle organic waste. To begin this new mandatory organic recycling program, a new green organic waste bin has been placed in four separate trash enclosure areas to dispose of all organic material. The four areas include:

1. Between garages 24 and 25.
2. Between garages 48 and 54
3. Between garages 120 and 121
4. Next to garage 151

A map has been included on the reverse side of this notice showing the four locations that the organic recycle bins are located.

A flyer is also included that explains what materials can be placed in the trash containers, the recycle containers and the organics containers.

You can begin recycling organic matter immediately. We look forward to our community doing their part to properly recycle as much as possible.

Thank you all
